

Additional Information for Cool Japan Seminar Participants:

This year the Cool Japan Seminar will take place in Hachinohe, Aomori Prefecture at the Tanesashi Youth Outdoor Learning Center. This facility is usually used by elementary school students for overnight excursions to teach them team building, responsibility, and independence. At the facility, guests are expected to do many of the chores, such as room cleaning, bathroom cleaning, bed making, etc. We hope that through these exercises that Cool Japan participants will be able to experience a small slice of Japanese education, while at the same time, learning team building, leadership qualities and bonding with their groups and room members.

Also, as this facility is not a hotel, we advise participants to bring their own toiletries, such as shampoo, soap, toothbrush, toothpaste, hairbrush, and whatever other goods you need for your daily life.
